

The screenshot shows a dual-monitor setup. The left monitor displays the Visual Studio Code interface with a Python file named 'login.py' open. The code contains a single line:

```
i print("login into your account")
```

. The right monitor displays a GitHub repository page for 'Case-Study' branches. The 'Default' branch is selected, showing it was updated 19 minutes ago and is the default branch. Below it, the 'Your branches' section shows a 'login' branch updated 'now'. The 'Active branches' section also shows the 'login' branch updated 'now'. The GitHub interface includes tabs for Code, Issues, Pull requests, Actions, Projects, Wiki, Security, Insights, and Settings. A 'New branch' button is visible in the top right corner of the GitHub interface.
